# SAVEARTH

Migliorare  
la consapevolezza  
del rapporto  
tra l'uomo  
e l'ambiente

## Dissemination seminar about the primary school CLIL project "SavEarth"

*Improving our environmental awareness*

Project Savearth is a primary school CLIL course that counts two different modules - one for the third year and one for the fourth - which was developed and tested in the 2017/2018 school year at "G.Rodari" school, IC Pergine 2 "C. Freinet".

This seminar's meetings are **open to all the people who are interested in**. In these meetings the CLIL English teachers Mario Morandi and Cristina Visentin will share the experience they acquired, from a learning goals perspective to what concerns their professional skills (lesson, task and assessment planning). The report of this project will be the starting point for an educational exchange between the people involved.

The meetings will be held by the teacher trainer **Tanja Westfall-Greiter**, an expert in science of education and pedagogy, who is responsible of the Austrian middle school educational reform along with the professor emeritus Michael Schratz. She guided the initial development of this project from a methodological point of view.

**We'll meet on**

**Thursday 4th and Friday 5th October from 16:30 to 18:30**

in the "Strafacendo 3.0" room- Scuola media "G.Garbari" - Pergine Valsugana  
Via Amstetten, 4 - Pergine Valsugana Tel: 0461 5312312
